PROFESSIONAL SUMMARY

2+ years building React/Next.js applications across 4 companies. Experienced in payment systems, webhook architecture, and real-time features.

EDUCATION

Bachelor of Science (Computer Science) 2018 - 2022
Art's, Commerce and Science College, Amravati Grade: 75.18%

INTERNSHIPS

Frontend Engineer Intern February 2025 - February 2026
Dexy AI *Remote*

- Built responsive web interfaces using Next.js App Router and Tailwind CSS contributing to features used by active users daily
- Implemented data fetching with TanStack Query — caching, pagination, and optimistic updates
- Refactored shared UI into a component system reducing duplication across pages

React Developer April 2024 - February 2025
TheMoonDevs *Remote*

- Developed production features using React, Next.js, TypeScript, and Prisma
- Integrated APIs with proper error handling and loading states
- Ensured responsive UI and cross-browser compatibility

React.js Developer Trainee June 2023 - November 2023
CTO-Ninja *Remote*

- Built responsive React.js applications from scratch with HTML, CSS, JavaScript, and Material-UI

Software Development Intern December 2022 - April 2023
Techmates *Remote*

- Developed user-friendly UI components using React.js and TypeScript with Blueprint.js component library

PROJECTS

SaaSify — Multi-tenant SaaS Billing Dashboard ([Github](#)) ([Demo](#)) March 2026

- Tech Stack: Next.js 15, TypeScript, Tailwind CSS, Prisma, MongoDB, NextAuth.js, Stripe, TanStack Query, Recharts, Resend
- Integrated Stripe Checkout with idempotent webhook handling — prevents duplicate subscriptions when Stripe retries failed deliveries
- Built complete subscription lifecycle: upgrade with prorated billing, downgrade, cancel with period-end access, and reactivate
- Owner analytics dashboard with MRR/ARR, 12-month revenue charts, churn rate, and server-side paginated customer search
- Webhook logs page showing every Stripe event with expandable JSON payload — built for production debugging

HireFlow — Full Stack Hiring Portal ([Github](#)) ([Demo](#)) January 2026

- Tech Stack: Next.js 15, TypeScript, Tailwind CSS, Prisma, MongoDB, NextAuth.js, Redux Toolkit, TanStack Query, Pusher, Resend
- Built hiring platform with role-based access control for Admin, Recruiter, and Job Seeker
- Implemented real-time messaging using WebSockets with optimistic updates
- Designed scalable architecture using reusable hooks, reducing component complexity by ~40%

SKILLS

Computer Languages: JavaScript, TypeScript
Software Packages: React, Redux, Figma, Prisma ORM, Next.js, Tailwind CSS
Others: UI/UX, Git and Github, Postman
